DevOps Engineer

Hiring organization

Axeltra

Description

Our client, a trailblazer in the construction industry based in Israel, is seeking a proficient DevOps Engineer. You will be part of a team dedicated to transforming the construction landscape through a comprehensive platform that leverages advanced artificial vision. This innovative system provides real-time insights into scheduling, quality, and budget by capturing and analyzing execution progress. As a DevOps Engineer, you will contribute to developing computer vision technology that surpasses human capabilities in construction process inspection and analysis, delivering unparalleled innovation and value to the sector.

Responsibilities

- Implement and manage continuous delivery systems and methodologies.
- Define and deploy monitoring, metrics, and logging systems.
- Work collaboratively with the software engineering team to ensure seamless integration and deployment of complex applications.
- Design, manage, and maintain tools to automate operational processes.
- Troubleshoot and resolve issues in development, test, and production environments.

Qualifications

- Bachelor's or Master's degree in Computer Science, Engineering, or a related technical field.
- Proven experience in a DevOps Engineer role or similar.
- Strong knowledge of common DevOps tools (e.g., Git, Jenkins, Ansible, Docker).
- Experience with systems and IT operations, cloud infrastructure, and containerization technologies.
- Proficiency in scripting with languages such as Bash, Python, or Perl.
- Familiarity with Linux/Unix administration and experience with database management.

Job Benefits

- Opportunity to work on pioneering technology in a rapidly growing industry.
- Competitive salary package with potential bonuses.
- Health and wellness plans to support your well-being.
- Retirement benefits with employer matching.
- Generous vacation policy and flexible work arrangements.
- Professional development opportunities to help you grow your skills and career.

If you are driven by innovation and want to make a significant impact in the construction industry, join us in advancing the future of construction technology.
